

SAVE ON ALL YOUR RUNNING COSTS WITH AN ASSOCIATE LEASE

What is an Associate Lease?

An Associate Lease is an arrangement where an associate of the employee (e.g. spouse, family member, or family trust) owns a car and leases it to you - the employee - on a fully maintained basis.

How it works:

Following is an example of how the associate lease works. In this example the employee packages a **\$15,000** car travelling **20,000kms** per year over a lease term of **3 years**.

Running costs of the vehicle are:

- **\$800** registration
- **\$1,400** insurance
- **\$4,000** fuel
- **\$1,500** services, repairs & maintenance

You will save:

Annual Salary

\$40,000	—————>	\$3,388
\$80,000	—————>	\$4,915
\$120,000	—————>	\$5,687
\$200,000	—————>	\$7,395

*Salary packaging fee not included. Figures are for illustration purposes only. Taxation calculations are according to our interpretation of current legislation as at 1 July 2017. Figures may change at any time and are no substitute or legal or other professional advice.

Who can my associate be?

An 'associate' can be your spouse, partner, other relative or family trust.

Does it work with all cars?

Yes. The older the car the better. This is because Fringe Benefits Tax (FBT) is calculated on the market value of the car.

How do I get started?

Contact our team who will provide information on how you can save money on the car your already own.
